Everest Fir

On LED

Our Everest Fir collection is our commercial line of trees, wreaths and garland made from top quality PVC and have been designed to bring you our fullest most lush commercial greenery yet. These are the perfect canvas for adding bows, ornaments or large C9 bulbs. The Everest Fir collection has the welcoming curb appeal every business wants to display.

LED Lights

Energy efficient LED's are available in all of our greenery. LED's use about 85% less energy than the traditional Incandescent. They also do not get warm which makes them absolutely safe inside or out.

Our Commercial LED is a crisp, clean, 5mm wide angle warm white. One piece sealed construction helps extend the life expectancy by helping to weatherproof the light sets.

PVC

PVC stands for Poly Vinyl Chloride, a non-toxic, hypoallergenic & flame-retardant material. This is a classic look for artificial trees that gives the branches the rich, full body "look of nature." Many think of this as the needles that were on their childhood tree.

Everest

Commercial Tree

Mount Everest is the earth's highest mountain. Our EVEREST FIR COLLECTION is the our top of the line outdoor collection. The EVEREST FIR COLLECTION has 5 tree varieties for the great outdoors or large indoor spaces.

This collection is less fluff, **memory wire** greenery that will complement all your other holiday decor. Like the mountain, these trees are strong and stand the test of time. Each tree comes in several sizes, rolling wheels that lock and has its own look and feel.

Item #	Size	Frame Width	Width w/ Branches	Weight	Tips	# of Lights	Watts

Trees come in 3.5' increments up to 60'

Small Commercial/ Residential Tower Tree

Made of fade and crush resistant PVC needles, the dense foliage appears fresh-cut. The branch tips are sculpted to enhance the tree's realistic appearance.

Trees are built using only flame-resistant materials. Sturdy bases and trunks add stability to keep each tree firmly planted in an upright position.

Gift Boxes

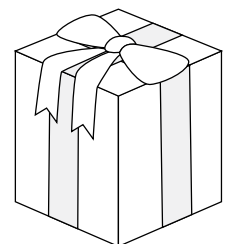

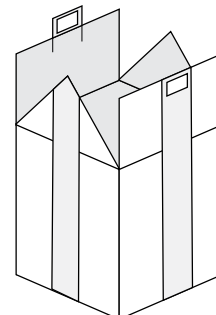

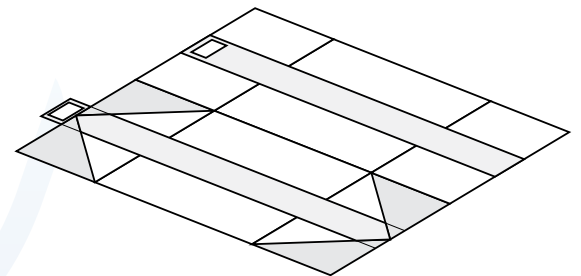

Nothing is more fun than ribbons, bows and packages at Christmastime. These will add fun and excitement to any display. All of our bows and boxes are outdoor/indoor rated with added UV protection.

On the glitter boxes, the glitter is incorporated into the fabric so it will stay on and not glitter the ground below.

Gift boxes fold flat for easy storage.

Trees

Our most notable products are our top of the line trees. Our three main lines of trees, Prestige Deluxe, Prestige & Imperial offer something for everyone. We offer a unique selection of branch styles, lighting options, and sizes. With unmatched structure, we know our trees are built to last. We take pride in the quality of our products and offer a 25 year warranty on our highest quality Prestige Deluxe and Prestige trees. And a 10 year warranty on our Imperial line.

Prestige Line

- Solid Steel Structure
- Steel Tree Trunk Pole
- New Tensile Strength Tips
- Extremely High Light Count
- Extremely High Tip Count
- Lamp Locks on Every Bulb
- Easy to Assemble Construction

One Plug Pole

- Solid Steel Structure
- Pole to Pole Electrical Connection
- No Hassle Placement
- No Extra Cords in the Tree
- Easy to Assemble Construction

Prestige Deluxe

- Tree is composed of PE & PVC

Prestige

- Tree is composed of PVC only

PVC

PVC stands for Poly Vinyl Chloride, a non-toxic, hypoallergenic & flame-retardant material. This is a classic look for artificial trees that gives the branches the rich, full body "look of nature." Many think of this as the needles that were on their childhood tree.

PE

PE stands for Poly Ethylene, also a non-toxic, hypoallergenic, flame-retardant material. PE needles are molded for the illusion of real pine needles. This is the fashion forward look, and the most realistic the industry has to offer. To keep costs affordable, all of our PE trees are mixed with PVC on the interior.

Imperial Line

- Reinforced Steel Hinges
- Solid Steel Stand
- Solid Steel Branches
- Steel Tree Trunk Pole
- High Light Count
- High Tip Count

Christmas Decor by Lone Star Electric, Abilene, TX

Wreaths & Garland

Our line of wreaths and garland are made from top quality PVC and have been perfected over the years to bring you our fullest most lush greenery yet. These are the perfect canvas for adding bows, deco-mesh or large C9 bulbs. Available both lit & unlit and in a wide range of sizes. Lit greenery is available with mini lights in both LED & Incandescent.

LED Lights

Energy efficient LED's are available in all of our greenery. LEDs use about 85% less energy than the traditional Incandescent. They also do not get warm which makes them absolutely safe inside or out.

In the past, the LED lights have been too harsh for human eye on interior applications. We have worked diligently to perfect the LED light. Our Glow LED imitates the incandescent light more closely than any other LED light on the market.

PVC

PVC stands for Poly Vinyl Chloride, a non-toxic, hypoallergenic & flame-retardant material. This is a classic look for artificial trees that gives the branches the rich, full body "look of nature." Many think of this as the needles that were on their childhood tree.

Incandescent Lights

Classic Incandescent bulbs are a favorite of many. Our incandescent wreaths and garland all feature the clear lights and last much longer than most in the industry. Durably built for indoor or outdoor use.

Formations

Formations are the stand out pieces to any classic display. Whether you're adding a nativity to a traditional design or a motorcycle riding Santa to a more contemporary one, Formations bring it all to life.

The construction of our Formations is strong and durable. The fiberglass material is made so the pieces can be used indoors or outdoors. Many of our larger pieces assemble and disassemble with ease making for easy set up and storage.

All Formations are painted with an UV automotive grade paint. This is another feature that allows these pieces to stand up to outdoor weather. The paint is vibrant, fade and chip resistant. Acute detail is important in the design of these figures.

54-900-36	Fiber Optic Pumpkin with Music	36"

Illuminations

Light up your night with the Illuminations line. For 2017, all of our illuminations will be lit with LED mini lights. These are some of our most unique and beautiful products. They are the perfect addition to a home or business full of lights. They bring the glow and warmth we all love around the holidays.

**NEW FOR 2017
ALL LED**

The original designs of the Illuminations collection are made out of heavy duty fiber resin, UV coated and can be used both indoors and outdoors. They look great underneath your tree or in a grouping on your lawn.

The interior contains standard mini lights. This makes for easy plug-and-go installation and also allows for the lights to be easily replaced as needed, bringing you years of enjoyment.

The translucent fiber resin gives off an almost stained glass quality when the lights shine through. The unique designs and detail make Illuminations one of our most proprietary products.

With everything from giant ornaments to playful characters to a nativity, Illuminations truly bring light to any holiday display.

Holiday Accents

Ornamentations

Ornamentations are the perfect accent to all your greenery. Whether you are decorating a tree, a wreath or garland, these ornaments add color and beautiful texture. With a variety of specialty shapes and colors, these ornaments can even be a decorative piece on their own.

Ornamentations are shatterproof and come in two UV protected finishes: Shiny Classic & Matte Satin. Can be used both indoor and outdoor.

With everything from 100mm (4") perfect for the residential tree or wreath to 300mm (12") for Giant commercial trees, our standard ball ornaments fit all needs.

In addition, we have several types of specialty ornaments that look beautiful in trees or hanging from the ceiling.
